Waste away the moments
Till they're gone

I've never known why I'm followed
But now it's making sense

Speak in silence

Speak in silence
I'm going under

I've never known why I'm followed
But now it's making sense
I've never known the reasons why I am followed
But now it's making sense

Speak in silence
My understanding of the
Words of silence
I'm going under

I've never known why I'm followed
But now it's making sense
I've never known the reasons why I'm followed
But now it's making sense

What could it do?
What could it say?
What could it be?
What could it do?
What could it say?
What could it be?
What could it do?
What could it say?
