(Chorus)

That's the sound of a madman workin' on the chain
Chain gang
That's the sound of a madman workin' on the chain
Chain gang

(L-Burna)

Mama told me to keep my head up
Head up and take as much as I can, can
Understand, I need a plan, pray and fear no man
Even though I walk thru the valley of death, i'm a
mighty warrior
When it's the story of one of the last real niggas left
Nigga, I keep my fo fo fully loaded, with a c-4 and
explosives
If I have to commit that murder, you can believe
survival's the motive
I fear no man, nigga, no machine, nigga, no laws,
nigga, no system
I do what I gotta do, when I gotta do it, make sure you
ain't one of my
victims
Niggas is talkin', sayin' nothin', so I watch a nigga
whole team crumble
You niggas is P.I.'s , fin to get pee'd on by the king of
the jungle
Nigga, what I bring won't be humble, y'all women and
kids won't get no mercy
Nigga want r-e-s-p-e-c-t, 'cause a nigga in the ghetto
thirsty
Certainly, we all scramblin', gamblin'
Tryin' to get paid, livin' this shit, been doin' this day by
day
On the race to become that jack of all trades
Had it all made
But, nigga, when the tough got goin', and goin' got
ghost
You already know who be thuggin' the most
City to city and coast to coast
Soldiers on post, niggas we all strapped
Nigga, we all rap, and we all bust caps, nigga

Just gimme your number, nigga, get right back at'cha,
partner
If you're business good, then we'll holler
Nigga, you about the dollar, pop your collar, nigga
I fuck with polished niggas and strictly dime bitches
You think you gon' waste my time, bitches
You must be outta your mind, bitches
Niggas on some funky shit, you can quote this shit
Nigga wrote this shit, i'm on some icy roller coaster shit
Niggas don't know how low we get

(Chorus)

That's the sound of a madman workin' on the chain
Chain gang
That's the sound of a madman workin' on the chain
Chain gang

(L-Burna)

Now, it's all about me and my niggas, them one of a
kind niggas
Niggas that'll shoot you in your spine
Nigga, blaze up and sip some wine, nigga
Them Bone niggas packin' the chrome
Nigga, runnin' up in your zone
Nigga, puttin' a bullet to your dome
Nigga, screamin', "the war is on, nigga!"
Now that we acquainted, nigga, i'ma paint this perfect
picture
It's about love, peace and happiness
Don't let that murder get ya, 'cause, nigga, if it get ya
Nigga, you got, that's why I live and I live a lot
I'm in the club with my glock,
Nigga, I sleeps with my glock, keep it cocked
Just in case a nigga try to come thru the door and catch
me sleepin'
Wanna see me weak, but, nigga, that's what I be waitin'
fo'
Some people say it's paranoia, but I beg to differ
Gotta get wit'cha if you think i'ma be that nigga layin'
stiff and cold
I'm fightin' eternal wars
Let alone society, for the shit I kick they wanna slit my
wrists
These mothafuckas out to quiet me
They wanted that thugsta music, but we don't
surrender
Far as I see, ain't no contenders
Nigga, we champions, rebels and winners, nigga

(Chorus)

That's the sound of a madman workin' on the chain

Chain gang
That's the sound of a madman workin' on the chain
Chain gang

(L-Burna)
I only kick it with my heart to heart niggas
Mastered the art niggas
Them niggas that's never gon' fall apart niggas
Them secret assassin, roll in the dark niggas
March niggas, it's real, better be ready in the
battlefield
Tell you right now, this ain't no drill, fuckin' around can
get you killed
Ain't no time fin to be wasted, really 'cause a nigga
ain't got no patience
For them stud dummies that be talkin' loud, run around
catchin' cases
Lettin' you know I play for keeps, baby
And I know can't none of you ho's can save me and
fade me
But nigga, i'm just too deep, baby
Think Layzie's shady, get a load of Lightning
Lil' L Burna, with the strength of fifty titans
All I can see is total choas comin'

(Chorus)
That's the sound of a madman workin' on the chain
Chain gang
That's the sound of a madman workin' on the chain
Chain gang

Mama told me to keep my head up
Head up and take as much as I can, can
Understand, I need a plan, pray and fear no man
I keep my head up
Head up and take a as much as I can
Understand, I need a plan, pray and fear no man
Nigga, pray, fear no man
Nigga, pray, fear no man
