This is my day of reckoning
Its time to even the score
No more mask of friendship towards you anymore
I've played this game for long enough
Been so nice it makes me sick
(Pre-Chorus)
How does it feel tell me how does it feel
You have no idea
(Chorus)
And I just want you to suffer remember why you left
now
Now that were not together
You have no idea
This is my day of recovery youve destroyed what we
built
I really hope the pain inside won't override the guilt
And I just want you to suffer
Why you left I have no idea
Now that were not together
How do u feel?
