You drain me
You drag me
You put me down in here
I am, I see you suffering

I need it
The pain you place in me
I feel this
It tears away at me

And I'll drain you
I'll drag you
I'll put you down in here
You are, you see me suffering here

And I need it
The pain you place in me
And I feel this
It tears away at me

Down here I see it
Sober now
But I wish you could
Substitute these feelings for me

And I need it
The pain you place in me
And I feel this
It tears away at me

Tear away the pain
