Fall

Fall amongst that clover

Roll amongst that clover

Spread your bones just like I told ya

That's where I

I found the love of my life

I found the love of my life

I found the love of my life

Don't hang

Don't hang yourself on that rope

Cut my veins and I'll cope

But don't hang yourself on that velvet rope

And when I fall

When I fall out of favour

Well I'm the Son not the Saviour

Well I'll be on my best behaviour

Shed your load your donkey's come home

Shed your load your donkey's come home

Shed your load your donkey's come home

Shed your load your donkey's come home, come home

Shed your load your donkey's come home

Shed your load your donkey's come home

Come home

Come home
