"Pray To God"

Visit "[Pray To God](#)" on MotoLyrics.com

Say what you want about Elvis
Call him the king
It's one thing to die for a people
And another just to sing

Say that the devil's a genius
And be marked for the kill
Say what you want about Yahweh
And He'll love you still

Say what you want
Pray to God

Say that as long as you don't inhale
You can take your little toke
Say that there ought to be a sin tax
Then we're all going broke

You can say that there ought to be a judgment
And someone's gonna pay
And hope that there's nobody listening
To all the things that you say
