Alarming and lovely
Allow me to find you
Detect you accept
Can you help me

That's mercy he let me come
So lonely I left there
Crushed untrusting

Today's the day I will see
Everything you do for me
You are God you are sweet
You are everything to me

Allow me to hold you
Protect you to see
The things that you don't see

Alarming you're crushing
And lovely I'll miss the
Disappointment

Today's the day I will see
Everything you do for me
You are God you are sweet
You are everything to me
