I'll take the pain for all you do,
Anything to become your best friend,
Always waiting with open arms,
Only to run into rock solid hearts.

Moff me,
Scoff me,
Beat me,
Kill me,

Give myself to all under a Dogwood tree,
Treat me how you like, I don't care you see,
I'll treat you the same no matter what you label me.

All I want to do is love you,
Give me a chance to get inside of you,
I would only give up my only kid,
Just to help you spend forever with me, yah!

Try me once you'll be back for more,
I'll change your life when i knock on your door,
Once your booked you can tell about it,

Then we'll get 'em all on it no one wants to quit.

Moff me,
Scoff me,
Beat me,
Kill me,

Give myself to all under a Dogwood tree,
Treat me how you like, I don't care you see,
I'll treat you the same no matter what you label me,
yee-ah!

All I want to do is love you,
Give me a chance to get inside of you,
I would only give up my only kid,
Just to help you spend forever with me!
