"Give Me Some Kinda Magic"

Visit "[Give Me Some Kinda Magic](#)" on MotoLyrics.com

Thereza Bazar / David Van Day)

I was a young man choosing to be alone

You were a young girl breaking out on your own

It's the change you made in me

And your smile can make me see

That it's easy to try

When I know that you're taking me high

(You take me higher and higher)

Chorus

You give me some kinda magic

And I don't wanna lose my hold on you

You give me some kinda magic

'cause you set me alight when I'm close to you

(It shows)

No good pretending don't wanna be alone

(Don't want to be on my own)

With you beside me we're making our house our home

(We're going to make our house our home)

It's the way you look at me

'cause you set my spirits free

And it's easy to try

When I know that you're taking me high

(You take me higher and higher when)

Repeat chorus

Thinking of you girl I always do

You take up all my time

'cause you make me strong

And your magic lingers on

(You take me high so high)

Repeat chorus to fade
