Can't say we're lovers, can't say we're friends
Don't even know if I'll see you again
But against your warm body I felt so alive
And you got me over a heartache tonight
My heart was broken, my hurt was deep
I had lost something I wanted to keep
Lookin' for comfort when you caught my eye
And you got me over a heartache tonight
Chorus:

Sweet conversation, a drink and a dance
Led to an evening of making romance
And I don't even care if it's wrong or it's right

'cause you got me over a heartache tonight

2nd chorus:

Yes, you got me over a heartache tonight
Stirring up passion brought me back to life
Oh, and it may not last, but who know it just might
But you got me over a heartache tonight
Yes, you got me over a heartache tonight
