(Porter Wagoner)

They say most anything you eat could hurt your health  
Be careful what you drink, don't harm yourself  
And pollution in the air might make you sick  
Makes you afraid to live, afraid that you might die too  
quick  
Do the men that quote this danger really know  
Life is gift to be enjoyed and not to worry so  
The biggest danger sign that we should know  
Make sure we're right with God, as through this world  
we go

We're afraid to live 'cause we're afraid of dyin'  
And afraid to love the one we love, afraid they might  
be lyin'

We can't enjoy life when they say each thing might  
bring an early grave  
We're afraid to live 'cause we're afraid of dyin'

Do the men that quote this danger really know?  
Life is gift to be enjoyed, why worry so?  
The biggest danger sign that we should know  
Make sure we're right with God, as through this world  
we go  
Make sure we're right with God, as through this world  
we go
