Hurt is no stranger to me
And oh, how well I know misery
You always hurt me, but I'll always forgive
And I'll hurt for as long as I love you
And I'll love you for as long as I live

Oh, it's my fault for loving you so deeply
I'll give you my love completely
I'll give you love, but hurt is all you give
And I'll hurt for as long as I love you
And I'll love you for as long as I live

For as long as I love you there'll be pain
Though tears come and go, my love remains the same
I'll always forgive you, you know that I will
And I'll hurt for as long as I love you
And I'll love you for as long as I live

Yes, I'll hurt for as long as I love you
And I'll love you for as long as I live
