You're the one that puts the sparkle in my eyes  
You're the one that puts the laughter in my smile  
You're the one that puts the meaning in my life  
And I'm bubbling over, bubbling over, bubbling over  
Because you are mine

Bubbling over with the joy that only love can bring  
Bubbling over with the song you taught my heart to  
sing  
And I'm so happy lovin' you that anyone can see  
That I'm bubbling over, bubbling over, bubbling over  
Because you love me

I have never known a love that felt like this  
You're the one I want to share my lovin' with  
Your gentle way of lovin' me and your thoughtfulness  
Keeps me bubbling over, bubbling over, bubbling over  
With happiness

Bubbling over with the joy that only love can bring  
Bubbling over with the song you taught my heart to  
sing  
And I'm so happy lovin' you that anyone could see  
That I'm bubbling over, bubbling over, bubbling over  
Because you love me

Yes, I'm bubbling over, I'm bubbling over, I'm bubbling  
over  
'Cause you love me
