Someday when Im over you
And when I think Im able to
Well, I might try to be
Your friend again
But your restless heart
And rovin eyes
My jealousy, these
Endless fights
Ive got to get out of your life
Or I will never mend
Chorus:

I guess I'll die a bit each day
But Im always dying anyway
And I don't have the heart to
Stay, and I can't take the pain
I know weve tried to no avail
Our heaven now has
Turned to hell
The same old hurt
We know so well
And somethings got
To change

We both know it's got to end
The passions gone
Its just pretend
And one of us have got
To make the move
We might as well just give it up
Weve lost respect and
There's no trust
And without this, there's
No real love
Its just some sad excuse

2nd chorus:

I guess I'll die a bit each day
But Im always dying anyway
And there's nothing left but walk away
Aint this a crying shame

A change of pace
A change of heart
A change of place
A place to start
And well be better off apart
Our only chance is change

Tag:

And we never will
But something has to change

Fade:

But someday when Im over you
And when I think Im able to
Then I will try to be your friend again
But I don't want to see
Your face til then
Change, I need a change
I need a change
We need a change
