Baby only kind you take up town
I am just a country road
That you keep turnin' down

If you ever hit a dead end street
If it's love that you're looking for
You can always turn around
And beat a path right to my door

Do I have to draw you a map
You seem to know your way around
So when you're tired of spinnin' your wheels
Baby, we can go to town

You're livin' in the fast lane
I guess, I'm just too slow
I never wore silk or fancy furs
Just plain ole calico

I'll never be a fast lane lover
And they're the only kind you take up town
I am just a country road
That you keep turnin' down

I'll never be a fast lane lover
And they're the only kind you take up town
I am just a country road
That you keep turnin' down

I am just a country road
That you keep turnin' down

You're livin' in the fast lane
I guess, I'm just too slow
I never wore silk or fancy furs
Just plain ole calico

I'll never be a fast lane lover
And they're the only kind you take up town
I am just a country road
