Fight and scratch fight and scratch that's all we ever do  
There surely must be more to love than to fight and  
scratch with you  
You you to fight and scratch with you

Well you just bought a foal last month now you want a  
wig  
It looks like you couldn't understand my paycheck ain't  
that big  
Well what about the dough you lose in them poker  
games downtown  
(I figured you'd mention that smart aleck)  
Yeah and that brand new boat and that fishin' gear  
But no uhhuh I don't reckon that'd count really

Fight and scratch fight and scratch...

Sometimes I swear I think that you're the devil in  
disguise  
Cause when you're mad you oughta see the fire fly  
from your eyes  
Well you don't look so cute yourself when you're mad  
at me  
And if you don't like the way I look then you know how  
to leave

Fight and scratch fight and scratch...

Well I love you and you love me but we're always findin'  
fault  
But the way we fight you wouldn't know we had any  
love at all

We just fight like cats and dogs we'll leave then come  
right back  
For what excitement would we have if we didn't fight  
and scratch

Fight and scratch fight and scratch...

Why don't you drop dead oh you'd like me to and I'll  
live forever just for spite

Why don't you keep your big mouth shut  
Well why don't you just make me if you think you're big  
enough  
Yeah and I could whip you with both hands tied behind  
Yeah you just try it with me and I'll knock your brains  
out  
With a stick of soap that's good Catfish  
What's a catfish why'd you call me that  
They're all mouth and no brains boy that's really good  
It's all I can do to keep from laughin' hah  
That's funny you sure are a funny little fellow
