We're the two new people that's moved to the middle
of the block
And we're the talk of the town and don't you think we're
not
For we've found love and happiness, people envy us,
you see
For we've found heaven right here on earth at four o
thirty three.

Yes, we've found what most people are looking for
And it's not a lot of money to spend on a real fine car
But it's a window where a bird flies and sings so free
And there's a whole lot of windows in this little house at
four o thirty three.

Chorus:

The four thousand block proves what true love can do
Once a lonely place, but was sold to me and you
Oh, all around the house you can see little children play
And they're not other people's kids, we're proud to say
They are the symbol of our love for all the world to see
And they're a part of heaven right here on earth at four
o thirty three.

All hours of the day you can see many people drive by
For a look at the house they think fell from the sky
They think this place would make them as happy as you
and me
And the whole town's trying to buy our house at four o
thirty three.

Chorus:

The four thousand block proves what true love can do
Once a lonely place, but was sold to me and you
Oh, all around the house you can see little children play
And they're not other people's kids, we're proud to say
They are the symbol of our love for all the world to see
And they're a part of heaven right here on earth at four
o thirty three.

We're not a'gonna sell our happy little house at four o

thirty three

Wouldn't take a pretty penny for the love we have at
four o thirty three...
