Don't tell me you're sorry for thing you caused me  
And from from now on you'll be true  
And don't don't you ask me to forgive you again I'm  
fresh out of forgiveness  
for you  
Now I, I gave you everything I knew how to give  
Now I've done done everything you've ever asked me  
to do  
But even even a fool gets so tired being fool I'm fresh  
out of forgiveness for  
you  
No I I can't I just can't I can't forgive you this time if I  
did oh I know you  
do  
Well you're just too just too wrong and you hurt me hurt  
me again  
And I'm fresh out of forgiveness for you I'm fresh out  
of forgiveness for you
