You've seen me naked in more ways than one
You've seen me done up, seen me come undone
We've cried in the darkness, we've laughed in the sun
We've been forever, yet we've just begun

We've come full circle, all the way 'round
Through the good times and bad times, through life's
ups and downs
Still we've stayed together through thick and through
thin
Yes, we've come full circle, thank God, we're still
friends

And you know the soft spots under my skin
Deep down inside me, where no one has been
We've sailed troubled waters, we've soared on the
wind
But time's only sweetened this love that we're in

And we've come full circle, all the way 'round
Through the good times and bad times, through life's
ups and downs
Still we've stayed together through thick and through
thin
Yes, we've come full circle, thank God, we're still
friends

We've cried in the darkness, laughed in the sun
We've come full circle and we've just begun

We've come full circle, we've been all the way 'round
(We've come full circle)
We've come full circle, we've been all the way 'round

You know we've cried in the darkness and we've
laughed in the sun
(We've come full circle, we've been all the way 'round)
But we've stayed together and we've just begun
(We've come full circle, we've been all the way 'round)

I'm so glad you're still my friend
(We've come full circle, we've been all the way 'round)

We've come full circle
