There is no magic like the magic of love
And nothing can do all thing a love does
And when everything is wrong your love makes it right
Oh, when darkness surrounds me your love is my life.

Chorus:

So hide me away, won't you hide me away
In the shelter of your love let me stay
(Let me stay) in the safety of your sweet loving arms
Keep me safe, oh, hide me away (hide me away, oh,
oh), mmm, mmm.

Love can bring laughter to a face
Well, with tears and love can make sadness and hurt
disappear
And your love is my garden against the storm of life
Oh, in my hiding place when I need to hide

Chorus:

So hide me away, won't you hide me away
In the shelter of your love let me stay
(Let me stay) in the safety of your sweet loving arms
Keep me safe, oh, hide me away (hide me away, oh,
oh), mmm, mmm.

Hide me, hide me away...
