At my door the leaves are fallin'  
A cold wild wind will come  
Sweethearts walk by together  
And I still miss someone

I go out to a party  
And look for a little fun  
But I find a darkened corner  
'Cause I still miss someone

Oh I never got over those blue eyes  
I see them everywhere  
I miss those arms that held me  
When all the love was there

Oh I never got over those blue eyes  
I see them everywhere  
I miss those arms that held me  
When all the love was there

And I wonder if he's sorry  
For leaving what we begun  
Guess there's someone  
For me somewhere  
Oh, but I still miss someone
