(Dolly Parton)

Sweeter than honey, as soft as a sigh  
Gentle as snowflakes but warm as July  
This is the way I remember your kiss  
If I live forever, I'll never forget  
Misty as morning, as blue as the sky  
Reflections of Heaven in your loving eyes  
Eyes that said more than your words ever did  
And if I live forever, I'll never forget

If I live forever, I'll never forget  
It's you that I'm wanting to spend my life with  
Do I still love you? The answer is yes.  
And if I live forever, I'll never forget

Two loving arms that I felt welcomin'  
Arms that I've run to again and again

How do you erase sweet memories you miss  
If I live forever, I'll never forget

Sad circumstances that stood between us  
Wouldn't let us share our precious, sweet love  
Do you remember, do you feel like this?  
If I live forever, I'll never forget

If I live forever, I'll never forget  
It's you that I wanted to share my life with  
Do I still love you? The answer is yes.  
And if I live forever, I'll never forget  
Do you remember, do you feel like this?  
If I live forever, I'll never forget
