"Little Things"

Visit "[Little Things](#)" on MotoLyrics.com

You never send me flowers or ever buy me candy
You never bring me pretty things when you come to see
me
And you forgot my birthday oh I wish you could see
How I miss the little things that you don't do for me
You never say that I look nice or that you're proud of
me
You overlook the little things that you should see
These little things are big enough to hurt but too small
to make me want to leave
But I do miss the little things that you don't do for me
Now how can I miss flowers that never reached my
door
How can I taste candy that's still at the candy store
These little things mean a lot to me to you they may be
silly
But I do miss the little things that you don't do for me
Yes I miss the little things that you don't do for me
