

Dolly Parton **"Love's All Over"**

Visit "[Love's All Over](#)" on MotoLyrics.com

I can see it on your face
It's over it's all over it's all over me and you
Love came down like the rains from heaven
Love's all over us dripping like the morning dew

We can't hide it anymore you can't hide real love
When it's all over all over me and you
And it's wonderful to know it's all over
Love sweet love it's all over me and you

Once we worried what folks would think if they only
knew
Just how much love there was between me and you

Oh but it's no secret anymore it's all out in plain view
And love's all over us love's all over me and you

We can't hide it anymore...
