The only way out is to walk over me  
So you found someone else and you're going to leave  
Did she tell you I don't love you did you really believe  
On the floor by the door I'll be down on my knees  
Cause the only way out is to walk over me  
You don't hear and you don't feel but I know you can  
see  
Just to prove that I love you I'll crawl at your feet  
Just look down at the ground where your footprints will  
be  
Cause the only way out is to walk over me  
You have put me just as low as anyone ought to go  
But I lay down beside what's left of my pride  
If you go then you'll know cause you can't help but see  
That the only way out is to walk over me  
[ steel ]  
You have put me just as low...  
Yes the only way out is to walk over me
