"Power Of Love"

Visit "[Power Of Love](#)" on MotoLyrics.com

Oh, the power of love can make you leap tall buildings
Love can make you cry like a little bitty child
Oh, the power of love can make you sad and lonely
Or wanna kick up your heels and face the world with a smile

Love has the power of a giant with a touch like a feather
Love can make your sky turn blue when it's stormy weather
Love can make you feel so cold or burn a hole right through your soul
The most powerful thing in the world must be love

Oh, the power of love can make you leap tall buildings
Love can make you cry like a little bitty child
Oh, the power of love can make you sad and lonely
Or wanna kick up your heels and face the world with a smile

Love can make your whole world shake like a large explosion
Or love can leave you quiet and still if it takes a notion
Love can take you way up high and make you jump thinkin' you can fly
It's a powerful powerful thing the power of love

Oh, the power of love can make you leap tall buildings
Love can make you cry like a little bitty child
Oh, the power of love can make you sad and lonely
Or wanna kick up your heels and face the world with a smile
The most powerful thing in the world must be love
