Our love affair is bitter sweet
Insecure and incomplete
And I've often wondered why your leaving's been so
long delayed
It's all become so complicated
Maybe you feel obligated
And out of sympathy for me you stay
But I had rather live alone
Than live with someone who doesn't love me
And I'd rather have you go than stay
And put me down a thinkin' you're above me
Our love affair is so wound up
It's best that we unwind
And if you don't love me, leave me
And don't let it trouble your mind

You've waited much too long to leave afraid of how I'd
take it
And I'm deeply touched by your concern but I think I
can make it
It won't be easy for a while but I'll forget in time
And if you don't love me, leave me and don't let it
trouble your mind

I had rather live alone
Than live with someone who doesn't love me
And I'd rather have you go than stay
And put me down a-thinkin' you're above me
Our love affair is so wound up
It's best that we unwind
And if you don't love me, leave me
And don't let it trouble your mind
