I'm gonna walk thru the front
On my own in the zone I'm alone
It is me is it bone is it you?
Is it me is it we is it e
Do we know do we know!

So we rock to the rythm when they come against
Us it ain't no weapons of war that can come up against
us!
And when they in bizznizz we are winners in the back
who get us
And now we back! we got split in the back of the writers

I'm gonna walk thru the front
On my own in the zone I'm alone
Settin the trome for next to come
Is it bone is it me is it you is it me
Is it e is it us? is it we! ?

I say this many and it explains in the vains
Will I face I'm a maze and I graze for my cave
Not a grave I'm a slave all the pain the path the
aftermath of my class
Now tell me can u feel that of the path of the pole of the
essial on the store
Hit the barr see the car that we comin in raw thru the
door with allah
Honey find her allah momma leave momma kill I'm a
protect her for real

I'm gonna walk thru the front
On my own in the zone I'm alone
It is me is it bone is it you?
Is it me is it we is it e
Do we know do we know!

Keepin' it rockin' and poppin'
No stoppin' you know that we gotta better be ready and
steady
Heavyer then the god allah watchin the baby's
I better be ready for everything sing even if we would
sing sing

You know what it is you know that I would luv u it ain't a
thing
And allah the lord of the rings the lord of the (?)
How did he find everything that exists
And Jesus, Moses, Mohammed, Islamic, catastrophic
Don't make me come up in this mothafucker
And get atomic and tell u this to stay away from the
baby's
Cause they are beautiful baby he beautiful
Never be left to watch that nigga because uh
That will be your funeral
Never to know cause here we come
Only the God, Ali Hiram Ra
Most beneficent, most merciful
The only Allah. Allah is God
And I'm a walk to the front
On my one, in the zone
I'm alone and I'm home
Mission to fuck, don't come

I'm gonna walk thru the front
On my own in the zone I'm alone
It is me is it bone is it you?
Is it me is it we is it e
Do we know do we know!

And never did hurt and
Never did pain us
Whether remain a deeper effect
You get to pay or suffer the faith
Remember the great, remember the gat
Whenever a kat would ever forgot that sediment
And leave 'em a strag
Never did spank him remember to break 'em
When he keep thinking Allah's a fag
Never get caught, the deeper the mist
Ensure to go deeper diggin' into your chest
Never to hurt you never to argue
When can I jerk you, when can I hurt you
Ready for less, their could've been more
Your ready to talk, is it pure
Never lure if it were Allah
So what am I here for

I'm gonna walk thru the front
On my own in the zone I'm alone
It is me is it bone is it you?
Is it me is it we is it e
Do we know do we know!
