[Chorus: Bizzy Bone]

Let us be all we can be

Baby it's only me; nothin but mud, spirit, indeed me

Let us be all we can be

Baby it's only me; nothin but mud, spirit, indeed me

Let us be all we can be

Baby it's only me; nothin but mud, spirit, indeed me

Let us be all we can be

Baby it's only me, it's only me, only me

[Bizzy Bone]

For you, I walk in my sins

and put it out to the world about the things that I did,  
that I did

For you, I give 'em the paper, look at the world

and the haters and watch where I cast my pearls

For you, I'll walk through the fire and the blistery winter

Constantly in prayer, even pray for the minister

For you, they can call me any name in the book

I take a look and skip the knowledge, put it on my  
knees brook

For you, it'll water the longer we stand in fire

When the grace and the peace and we'll never retire

For you, I'll answer your question, in a secretive  
manner

Very selective of the answers

I'm for you, I grind in the most righteous way

If possible if it's probable I'll give you anything you say

For you, tears they will drop like rain

I can't help it I see you hurtin it make me damn insane,  
for you

[Chorus]

[Bizzy Bone]

From death and destruction, vivid pictures of the  
corpse

Nobody would tell me, I see the matrix takin a loss

And cherish your soul, the main ingredient of course

The liquor to soothe the mortal spirit, baby I'm tossed

I'ma grind in the church, in the body we walkin

Our cathedral, the congregation's beautiful equal

But when the time comes my people, better be  
prepared  
For anythang in these last days better be, aware  
Smokin this purple haze, I'm goin crazy on the voices  
Throwin shit inside of my brain I maintain the sickest  
noises  
Alliance and allegiance, for the one almighty  
Without the science we the faithful ready for war, y'all  
try me  
Wicked army they could never buy me, can't even ride  
with me  
Bitin my babies and we need the love highly  
They frightening my babies but it's good cause I'm a  
soldier  
And I'm walkin in a narrow path, baby I told you!

[Chorus]

[Bizzy Bone]

Bryon, Orion my vision I'm here to unite the fuckin  
aliens and angels  
My solomon give me the angle  
Who in the dango, pop on one of my partners, c'mon  
my mama armor  
Flip out with the wicked dip out, I'm doin the damn  
thang  
School by the ministers, sinister wicked to contemplate  
Sinners they wanna comply with hate, baby don't even  
play me  
I was raised by those Africans, protected by Ethiopians  
And I read that grease was deep in the ruins, open yo'  
fallopian  
Philomina my Grandmother, Masedonia Mama  
Bah-bah Corinthians on simpletons fast  
With the job Bone everlast, got the narrow path father  
Set up shop come up out the coffin and we finna go  
find the grass  
Clash with the titans, I don't even think that  
motherfuckers be bitin  
But I know that other fuckers be fightin  
Sit this Mike Tyson missionary, dictionary rappers said  
Emmanuel  
Fuck with the chambers and I beat that ass well

[Chorus]
