The meaning of a mother named "Mercy Mary"
Attack of the love, the hug that steadily refuse,
Ever suffer the trouble, the problem that picks at the
very weary
Call it disease, but baby I'm just weeded, heated
blazon, for those P.O.D'ed
Hypno n moet jewel, for the few gon get the glee ton
All we r is Mo Thug, taking off since our regime
It's the mercenary of the whole team
N puff the green, until we all with kings in the seas
Problem's our knees up above ah
Put it to Solva, yo baby ask for alcohol in the wrong y'all
I won't bust no drama
To the pack of Dom of Perignon or (Malarial?) it's all
here
Ain't no Hollywood, my bid is Hollyhood n the souls got
hustle
Kill can u feel that Mista Ripsta, hmm I just can't breath
Hmm be ready to d-lo these plz rest in peace
In a death the souls will increase
Till they each get ready for the son of Mary
Hurry in the case of each of my mercenary's
Mercenary, Mercy Mary, Mercy Mary, mercenary

Mercy Mary, there she, very weary, really wish u would
tell me all of my plan n momma she loves me.
Mercy Mary, there she, very weary, really wish u would
tell me all of my plan n moma she loves me.

Carry my baby where ever my baby need to go, go, go,
go, go, go
Carry my baby where ever my baby need to go, go, go,
go, go, go

Yo while they like or not, gotta leave us alone, Hey!
Let's tell em "get up off of our ass" n what if don't say?
What do they know about love, what do they know
about home, home
Beautiful doves and plenty of love, I say it again if u
want now come on
I'm loyally walking, n praying, n talking about my day
upon my heartache
Kinda had saw, my feet is my car, we specially dark,
shhhh ahh
But people they saw me again n they get on the road, u
already know
The quicker, the better I'm felling about but I live in the
drop(alarm?)
Nobody is better we keeping it moving, it's hard as
ever, forgive what I've done
N repent in our dues, n know what I do's, n keeping it
cool, now what do we loose?
We it moving, n rapping "so lord forgive what I done" n
singing our dues
And living our dues, tell me what do we choose
Mercenary, Mercy Mary, Mercy Mary, mercenary

They keep on telling me I don't know nothing, I like that,
but I fight that
Jesus insight that "And baby Bryon u can go and re
sight that"

Yeah, to the pipe line, tell em how much u love me
Gotta string on chain game, (Pauly?) I know u hug me
A cynical so political let me tickle your mind
I'm kissing the ground
I love u daddy, the lord is so profound
Stay out of that flesh for me, no problem, gonna let em
pass em
My oppression is fitted with fine brass, at last

Mercy Mary, there she, very weary, really wish u would
tell me all of my plan n momma she loves me.
