Chorus

I see what they doing -
I know where they going -
But they just ain't knowing -
Emailing the element of surprise -
With the photographic eyes...

[Bizzy Bone]

Could it be all clear, boy, Yes - This is the gift of seeing
- Could it be all clear Ah - Yes, this is the gift of hearing
- Could it be all clear senti - Yes - This is the gift of
sensing - Whatever it is - I know that we is - Always gon'
be connected - Develop your gifts - Work with your
guide - This is the way we advance - I am a teacher,
teacher - So I ask that you respect me-

Chorus

I see what they doing -
I know where they going -
But they just ain't knowing -
Emailing the element of surprise -
With the photographic eyes...

[Aelieon El Nino]

You will realize that this is the time to elevate minds -
And finding the grid of spiritual vibe - Then telling us
this - Walking a life - Experience bliss - I am a psychic -
You are impressed - This is my reading - I will uplift -
Everyone listening so listen again - You are so
precious, you are so blessed - You have been chosen,
you have been sent - We ask you to join us, we ask you
to pray - This is the moment, this is the day - You are
the psychic, you are the change - We are the righteous,
we are the meek - They've been divided and they will
speak - Continue to grind, continue to journey - Look in
they eyes, you know that they heard me - Everyday,
they can catch me working - This is my life, this is
devotion - Every night and every morning - Every
rhyme and every bomb ? -

Chorus

I see what they doing -
I know where they going -
But they just ain't knowing -
Emailing the element of surprise -
With the photographic eyes...

[Bizzy Bone]

I - Peep out the scenery, what do you see? - Really, it
pains me - Expressing the truth and stressing the
peace - Staying humble hearted - And dearly departed
from the evil - Ain't don't need for me to judge - Now
look at the wickedness running the people - And ain't
no need for me to grudge - I'm only tryna get to heaven
- There are seven heavens - Every one - Allah protects
them and there are seven gates - That can lead you
ya'll to destruction - Call it the hell fire - Feel the
vibration out of discussion - I am not a liar - I can only
help myself until my time expires - Praise Allah, my only
help-

Chorus
