Every time I look into your eyes
I wanna turn and cry
Coz I'm happy, so happy

And every time that you take my hand and say
That we're gonna be okay
Makes me happy, so happy

Pour tous jours means for always
We'll never be apart

Every time you go away I pray
Nothing happens bad today
Coz I'm happy, so happy

And every time that I kiss your mouth so sweet
I still wonder how it's me
Makes me happy, so happy

Pour tous jous means for always
We'll never be apart

?

Every time I look into your eyes

Pour tous jous means for always
We'll never be
Pour tous jous means for always
We'll never be
Pour tous jous means for always
We'll never be
Pour tous jous means for always
We'll never be apart
Beating in my heart
Beating in my heart
Even when it stops
