C'mon!

Experience XTC, the time is right for me  
Forget my troubles, leave 'em behind  
Experience XTC, the time is right for me  
Follow my spirit, my heart leads the way

Don't need no Ecstasy, these pills don't work with me  
Don't need no feeder in no chemistry  
The only one is me, the only way to be  
I'm standing taller than I've ever been

I - I only live for the moment  
Tomorrow can wait  
I wipe off the dirt all the time

Experience XTC, the time is right for me  
Forget my troubles, leave 'em behind  
Experience XTC, the time is right for me  
I'm not what others just want me to be

It's my life can't you see, my own philosophy  
I've grown from all of the things I have done  
Bareepdadeepdadee - live it in dignity  
Rise up with all of your feelings so strong

I - I only live for the moment  
Tomorrow can wait  
I wipe off the dirt all the time

C'mon

Experience XTC, Experience XTC  
Experience XTC, Experience XTC  
Experience XTC, Experience XTC

I - I only live for the moment  
Tomorrow can wait  
I wipe off the dirt all the time
