Stuck in this moment. this black and white moment.  
your color is changing my life. I feel alright with a faint  
glow of you just pretending you'll be by my side.  
I know you want me! I'll do my make-up on your tv  
screen yeah. I know you you want me. I know you want  
me.

Christians on my television. telling me everything's  
fine. I'm touching me with a picture of you just  
pretending you'll be by my side.

I know you want me! I'll do my make-up on your tv  
screen yeah. I know you want me. I know you want me.  
Yes I'm wrong. you're right. I'm the reason why we  
fight. yes I'm wrong. you're right. u'm the reason why  
we fight.

I know you want me! I'll do my make up on your tv  
screen yeah. I know you want me. I nknow you want me.  
Yes I'm wrong. you're right. I'm the reason why we  
fight. yes I'm wrong.

You're right. I'm the reason why we fight.
