How many pills will there be for me? how many pills will  
you fill me with? how many pills will you have for me  
when I sit down for my breakfast? how much prozac  
should I eat so I can go kill all my friends? how much  
prozac should I eat so I'll be happy?  
Last night I had dreams about you. you walked in and  
called my name.  
I still hear your voice inside me. you walked in and  
called my name.  
How many calls do I have to make for woody to be on  
this track?  
How many calls do I have to make so woody allen calls  
me back?  
How much prozac should I eat so I can practice  
clarinet?  
How much prozac should I eat so I'll be happy?  
Last night I had dreams about you. you walked in and  
called my name.  
I still hear your voice inside me. you walked in and  
called my name.  
You called. my name.  
Last night I had dreams about you. you walked in and  
called my name.  
I still hear your voice inside me.  
You walked in and called my name.  
You walked in and called my name.
