You are right.

Ingest the tinniest pill. ingest the tinniest pill and you are hoping, yes you're hoping that you never will. Cuz if you're going to puke, you know that you are, and you know that you need.

Cuz if you're going to puke, then it's like the atlantic ocean in your mouth.

You are- why is there fluoride in all of my drinking water?

Another interesting fact that I learned from television. (in this moment)

Implant the tinniest chip. implant the tinniest chip and you are hoping, yes you're hoping that you don't get sick.

Cuz it controls all your thoughts, it controls all your wants, it controls all your minds.

And if you're going to think, then it's like the pacific ocean in your brain.

Cuz if you're going to puke, and you know you are, and you know that you need.

And if you're going to puke, then it's the atlantic ocean in your mouth.

You are- why is there fluoride in all of my drinking water? (you are right here)

Another interesting fact I learned from television. (in this moment)

Let's poison the news and feed it to the masses! (you are right here)

Our beautiful human experience is losing investors every year! (in this moment)

When I wake up from this dream/ well, I'll let you know.

When these drugs wear off of me/ well, I'll let you know.

When these feelings leave from me/ well, I'll let you know.

When this virus kills us all/ well, I'll let you know.

Ingest the tinniest pill. ingest the tinniest pill and you are hoping, yes you're hoping that you never will.

Cuz if you're going to puke, and you know that you are, and you know that you need.

Cuz if you're going to puke, then it's like the atlantic ocean in your mouth.

When I wake up from this dream/ well, I'll let you know.  
When these drugs wear off me/ well, I'll let you know.  
When these feelings leave me/ well, I'll let you know.  
When this virus kills us all/ well, I'll let you know.  
When I wake up from this dream/ well, I'll let you know.  
When these drugs wear off of me/ well, I'll let you  
know.
