Look the other way. I am not responsible for youe king.
Look the otehr way. I have a feeling things only get
worse from here.

Right here is exactly where I've been. I didn't try, I think
I've accidentally found myself. they didn't tell me what
to think. they showed me how.

Look the other way. I have a feeling things only get
worse from here.

Perception of reality is your greatest tool to change the
world.

Helpless, is exactly how you feel. none of this was
important on the day that you were born.

Look the other way. I have a feeling things only get
worse form here.

Look the other way. I am not responsible for your king.

Ashes to ashes and ego to ego and dust to dust.

Ashes to ashes and ego to ego and dust to dust.

Ashes to ashes and ego to ego and dust to dust.

Look the other wya. I am not responsible for your king.

Look the other way. I have a feeling things only get
worse from here.

Look the other way. I am not responsible for your king.
