Just because the earth is round, don't mean you've got
the right
To treat it like it was a basketball.
Pass it to the left, shoot it from the right
Destroying it is gonna take it's toll...
Oh no, I don't feel so good.
The world keeps spinning, here comes lunch.
Just because the earth is round, don't mean you got the
right
To kick it like it was a soccer ball.
Kick it to the ground, pass it to the sky
Destroying it is gonna take it's toll...

Oh no, I don't feel so good.
The world keeps spinning, here comes lunch.
All the dumping and spilling and burning and killing
that's going on all over the globe
How will the dumping and spilling and burning and
killing
affect us? Nobody knows.
Some wreck the state of the earth, some cry for the sky
It don't make a difference, we're the ones who are
gonna die.
Oh no, I don't feel so good.
The world keeps spinning...
