Ugly prisons of human lives  
They call it the saviour, the curing fire  
Still hiding the most secret desire  
To rust in the kingdom of blasted skies  
Hear the voices, the voices in your heart  
It is sweet enslavement of soul's loss  
Pray for me, for the world that is falling apart  
For another dead creation with his arms across

Scream  
Blind reptiles were born of your virgin daughters  
I'll drag you through the magic way  
Of endless tortures

Where are your one-day, yet exhausted gods?  
They're like a joke, a joke, I swear  
I am nowhere and I am everywhere  
Drinking poison with milk of sluts  
Pull the trigger, the final fireworks  
It rises above in speeches of a perfect liar  
The planet Earth through obscuring smoke  
There will be a new world  
Healing the blind by fire

Scream  
Blind reptiles were born of your virgin daughters  
I'll drag you through the magic way  
Of endless tortures  
In blood on infant lips  
Towards unending bliss  
I am the total madness force  
From outer worlds, behind the universe
