Your beautiful innocence, I want you
It's no longer a dream
A dream about you
For you my soul, your flesh for me
God inside you, devil inside me

[Chorus:]
When the waves of night
Embrace my dreams
I call your name
You're the innocent child
I'm your dark prince
Enjoy this game

Your beautiful innocence, I want you
Bound in black, leads to abuse
Let me kiss your lips and your face (your pretty face)
You take me in your sweet embrace

Your beautiful innocence, I want you (I want you)
Lay down on a bed, and I'll sleep with you (I'll sleep with
you)
For you my dreams, your life for me (your life for me)
God inside you, devil inside me (devil inside me)

[Chorus]
