Lie  
It's like a waiting bomb  
Your voice is cursing me now  
It makes me guilty

Take me alive  
You know I'm not afraid  
And I don't want to hide  
Here comes the thunder

Let me go  
I'm feeling like a freak  
Alienated  
I don't know how to talk to God  
Like leaves in the wind  
We're fighting together  
We've always been apart

Goodbye  
It's like a clenching loop  
Another strangulation  
Sadistical overdose

Stay for a while  
I'm afraid of the dark  
And bite me now  
I must go to my rose

I'm falling down  
I have a one-way ticket

Look at me  
What do you see?  
Something made my body damned

It's like a guest  
But it isn't him  
This infection's controlling me

All the legions in my veins  
Sing the anthem of my pain

They're besieging me

Who am I?

I know the price

There's no return from this hole

All the weakness I defy

Turns to be my last ally

It's deluding me

So it begins

The Patmos dream

The vindictive hand of God

No compromise

We have no time

Ending up in boiling water
