Life in a dream within the realms of fantasy  
Away from the light, warped reflections of past life  
Falling into the grey the fear intensifies  
Madness and chaos, the highways of disbelief  
Deep in my world, figures of black that shadow me  
Deep in my pain, madness and rage soils me  
Merciless and cold are the ones that smile  
Gripped with terror, how false they are  
Driven by madness, compelled to keep holding on  
Insane are the black, how dear and close to me  
Leave me in this endless nightmare!

In my subconscious I heard the voices from beyond  
In whispers they call to me pulling me into eternity  
So vast and black for all to see in this alternate  
reality  
Here we will stay if we do not wake, the past is behind  
you, the future forsake.

And here is forever never to sleep, eat or drink  
Pleasures of normal life are over  
The pleasures we endure here are foul and soured  
Tainted with the stench of impurity  
Can't you see this is me, comatose, never to be free  
Once a life, hope to be dead, to release me from this  
state I'm in.  
Kill me!  
My silent screams go unheard  
Lost in dreams, never to return from this endless  
nightmare!

Lost in a dream, fantasy becomes reality  
No normal life, in the abyss is where I'll stay  
Exploring catacombs on the other side  
Traveling the highways to opposite plains  
Submerging deeper into the black  
And here I will stay
