Mi amor I'm not sure of the right words to say
Maybe these simple words will do best to best explain
What I feel in my heart
What I feel more each day
How to make you see
How to let you know
How to say how to say how I love you so
With words you understand
Words that get right through to your heart
Here's a place to start
Chorus:
Tu Amor, I will always be
Tu Amor, means the world to me
Estaras siempre en mi corazon
You're the one in my soul
And I live for tu amor, tu amor
Mi Amor love you more with each look in your eyes
Maybe these simple words will do best to best describe
What I feel in my heart
What I'll feel for all time
How to make you see
How to let you know
How to say how to say how I need you so
With words you understand
Words that get right through to your soul
Words that will let you know
Repeat Chorus
You're the one that I need in my arms
Believe me these words I say are words
that come straight from my heart
How do I make you believe
Nothing means as much
as what you mean to me
Repeat Chorus
