"Well, if you talk to the average teen-ager of today and you ask them what it is about Rock 'n' Roll music that they like, the first thing they'll say is: the beat, the beat, the beat"

Sexy lover dude  
Lightning is calling you  
When you shake the little thing you do  
The dance-floor belongs to you

No matter what time, no matter what day  
The beating, pumping, jumping rhythm is here to stay  
It don't take long to read our needs  
Just come on in and feel the beat  
The beat

The devil will possess us both  
Possessed us with the rock 'n' roll  
Shake the night into the beat  
We know what we love and feel

No matter what time, no matter what day  
The beating, pumping, jumping rhythm is here to stay  
It don't take time to read our needs  
Just come on in and feel the beat

Sexy lover dude  
Lightning is calling you  
When you shake the little thing you do  
The dance-floor belongs to you

No matter what time, no matter what day  
The beating, pumping, jumping rhythm is here to stay  
It don't take long to read our needs  
Just come on in and feel the beat  
The beat, the beat, the beat, the beat...
