Behind the tears of black  
I see my queen in red  
Her river runs in tales  
Her water breathe in me

Time pass by blinded eyes  
Her candle's shade now guide  
Beyond the water cold  
A path of glass in snow

Now presenting a new dark age  
My tears of black runs in tales

A grave of tears in ice  
Icecold tear-drops are mine  
From past around my dreams  
She rest now in my wings

Beyond the frost, I now see her  
Red shining light surrounds the river  
Beyond the frost, I now see her  
Red shining light surrounds the river now

Beyond the tears of black  
I see my queen dead  
Her river runs my tales  
Her shining glitter me
