Jah shall clean out the bad weeds
And seperate them from the good
Cause the day of harvest is near

Worry unto those that say they're of Israel (and they
Are not)
Worry unto those that say they're Jews (and they are
Not)
Cause they shall be cast away
Like chaff that the wind driveth away I say

Jah shall clean out the bad weeds
And seperate them from the good
Cause the day of harvest is near

Death to the black and white opressors
Who have oppressed Jah Children innocently
I throw my word without partiality - Listen to I
Let it fall, and let it fall, let Babylon fall

Jah shall clean out the bad weeds
And seperate them from the good
Cause the day of harvest is near

Worry unto those that say they're of Israel (and they
Are not)
Worry unto those that say they're Jews (and they are
Not)
Cause Jah shall have them in his region
They're half the season
Cause they shall be cast away
Like chaff that the wind driveth away I say

Jah shall clean out the bad weeds
And seperate them from the good
Cause the day of harvest is near
