I'm a fountain of blood (my love)
In the shape of a girl
You're bird on the brim (my love)
Hypnotized by the whirl

Drink me- make me real (my love)
Wet your beak in the stream
The game we're playing is life (my love)
Love is a two way dream

Leave me now - return tonight
The tide will show you the way
Forget my name go astray
Killer whale trapped in a bay
(the ocean miles away)

I'm a path of cinders (my love)
Burning under your feet
You're the one who walks me (my love)
I'm your one way street

I'm a tree that grows hearts (my love)
One for each that you take
Your the ground i feed on (my love)
We're circle no one can break
Leave me now - return tonight
The tide will show you the way
Forget my name go astray
Killer whale trapped in a bay
(the ocean miles away)

I'm a whisper in water (my love)
A secret for you to hear
You are the one who grows distant (my love)
When i beckon you near

Life is a necklace of fears (my love)
Your uncried tears on a string
Our love will untie them - come here (my love)
Loving me is the easiest thing
