like a virus needs a body
as soft tissue feeds on blood
someday i'll find you - the urge is here
ooo-ooo-ooo-oooh

like a mushroom on a tree trunk
as the protein transmutes
i knock on your skin - and i am in
ooo-ooo-ooo-oooh

the perfect match - you and me
i adapt - contagious
you open up - say welcome

like a flame that seeks explosives

as gun powder needs a war
i feast inside you - my host is you
ooo-ooo-ooo-oooh

the perfect match - you and i
you fail to resist
my crystalline charm

like a virus - patient hunter
i'm waiting for you - i'm starving for you
ooo-ooo-ooo-oooh

my sweet adversary
my sweet adversary
my sweet adversary
