(Dokken, White)

What's wrong with you may be right for me  
Don't need to feel your sympathy, no  
In the dark  
I feel at home  
I need the night to make my feelings known

Alright like lone wolf, can't you see  
Living in false realities  
Do you know just how I feel, can't explain it,  
But it's real

Lost in a world full of fear, it gives me passion  
I'm just a lone wolf who's waiting  
Waiting for life's attraction to give me

1ST CHORUS:

The hunger...burning in my soul  
With the hunger...everybody knows  
It's the hunger to give me what I need  
With the hunger...satisfaction guaranteed

Blackened sky on a full moon rise  
Destiny, it calls to me  
Some call it love, some call it more  
I'll play that game if it gets me through the door

Alright like lone wolf, can't you see  
Living in false realities  
Do you know just how I feel, can't explain it,  
But it's real

Lost in a world full of fear, it gives me passion  
I'm just a lone wolf who's waiting  
Waiting for life's attraction to give me

2ND CHORUS:

The hunger...burning in my soul  
With the hunger...everybody knows

It's the hunger to give me what I need  
With the hunger..take a walk with me

BRIDGE

In the night I call your name  
As we stop to play the game  
It is it love or fantasy  
Living false realities

SOLO

1ST CHORUS

The Hunger (3X)  
Its the hunger....
