I heard about it raining on a Georgia night
Never saw clearly in the morning light
I was walking, just walking in the rain

She was a rainy day woman
She made me love her
Took my soul and I soon discovered
I was searching, searching for rainbows

[CHORUS]
Everybody loves a rain song
Cause everybody's been rained on
It's like a shoulder you can lean on
One time or another
Stormy weather
Everybody loves a rainbow
From San Francisco to Chicago
And no matter where I go
It's still raining in my heart

So play me a song
Just for a feeling
'Cause it's the only thing
That keeps you warm
When your memories
Get too cloudy to see
So rain me back home

Oh, I was walking
Just walking in the rain

She was a rainy day woman
She made me love her
Took my soul and I soon discovered
I was searching, searching for rainbows

[Repeat CHORUS 2x]
